Reyco Granning Fabricated Steel Spring Suspension

The Model 74B suspension is designed especially for heavy and extreme duty operations. This suspension features extra wide 4” springs, hangers, and bushings which spread the load over a much larger area to improve durability and reliability. Rated at 30,000 lbs. per axle, the Reyco Granning 74B suspension system is the standard by which all other extreme duty suspensions are judged.

**Features**

- High tensile steel wear pads
- Precision fabricated hangers
- Adjustable torque arms for easy alignment
- Cast torque arm ends for maximum life span
- Large rubber bushings in all pivot joints
- Double clamp bolt-on torque arms for extra long life

**Specifications**

- Undermount weld-on hangers
- GAWR (gross axle weight ratings) of 30,000 lbs. per axle
- Mounting heights of 16.5” with a 5” round axle and 17” with a 5.75” round axle
- 50” to 72” axle spread
- 4” wide springs
