

THE IFS FAMILY OF FOUR

**Better Maneuverability.
Smoother Ride. Easy Adjustment.**

14.6K, 16.6K, 18K and 20K capacities

A full family of independent front suspensions has just arrived. Designed to provide better performance and ease of use, the IFS Family of Four delivers peace of mind as well as a superior ride.

Features

- 60° wheel cut allows for a tight turning radius and better maneuverability. Available with most tires up to 385R
- Independent camber and caster adjustments for less hassle, and easy of maintenance
- 80% of the parts are shared throughout the IFS family making maintenance easier and less costly
- Shocks are at a one-to-one ratio for a more comfortable ride
- Better damping resulting in improved tire performance
- A low unsprung mass resulting in low natural frequency and an overall better ride
- A lighter weight cradle reduces fuel costs
- Better cornering geometry
- Better roll stability
- Independent and fully adjustable camber, caster and toe

Applications

- Class A diesel pusher motorhomes

THE IFS FAMILY OF FOUR

60° wheel cut allows for a tight turning radius and better maneuverability.

Independent camber and caster adjustments for less hassle, and ease of maintenance

80% of the parts are shared throughout the IFS family making maintenance easier and less costly

Shocks are at a one-to-one ratio for a more comfortable ride

Better damping gives improved tire performance
