3. This warranty shall not apply, and no warranty of any kind shall exist, on normal wear and deterioration resulting from the normal use of the suspension system.
4. The Company shall not be liable for the loss of use of any product, loss of time, inconvenience, commercial loss or any other indirect consequential, special or incidental damages due to breach of the above warranty of any other failure to comply with the terms of the contract between The Company and The Buyer. The Company makes no warranties of any kind, express or implied, other than as herein expressly provided, and specifically disclaims the implied warranties of merchantability and fitness for a particular purpose.
5. With respect to parts manufactured by others, The Company shall have no duty except to assign to buyer any claim, which The Company may have against the manufacturer thereof. (The Company warrants purchased components to the same extent as the Warranty extended by the original manufacturer to The Company).
6. This warranty does not apply to the normal “wearing out” of air springs, rubber bushings, shock absorbers, etc., or sacrificial wear areas such as springs to hangers. Also excluded from coverage is damage due to corrosion.
7. The determination of the reasonable cost of labor as required in paragraph one (1), shall be made in accordance with The Company shop standard times. No action for breach of this warranty may be commenced more than one year after the occurrence of alleged breach. This warranty is not transferable.
9. Retention of possession or use of the product for the warranty period shall constitute an unconditional acceptance thereof and fulfillment of all warranties and obligations of The Company in operating the product or remedying any defect either before or after that time shall operate to extend the warranty period.
